Now is a Great time to BUY.....

Buying a Home or Investment property should be a fun and exciting experience! My job is to deal with all the obstacles, arrange all the details and let you sit back and enjoy the Hunt. I have developed a network of professionals from Mortgage Brokers, Notaries & Lawyers right down to the Movers & Painters to help guide you through this important decision in your life. Whether you are buying your first home, moving up, or making one of many investments, you can rely on me to manage the process from start to finish.

I deal with clients from all walks of life and from all areas of the world, whether your a local looking for that perfect place to call home or someone contemplating a move to this beautiful city - I'm the man for you! And when its time to sell, you get the same level of commitment and attention to detail my own Mother would recieve!

Vancouver is a playground for those that know how to enjoy life; in this site you'll find all kinds of usefull information including; local restaurants, outdoor activities, shops and services; from pet grooming to people grooming. Under the "Mark's Favorites" section on my Links page you'll find places that I highly recommend you try out. This is a big city and so much to explore; but let me help with a few suggestions of my own.

A good realtor is more than someone that just puts paper in front of you to sign; I look at my business as full service real estate, an information booth and welcome wagon. If there is anything you need to know, dont hesitate to ask. Thats why I am here !
